Mentoring Program on Aging and Health Economics Research
NBER May 2024

With support from the National Institute of Aging, NBER launches a mentoring program for students from under-represented and nontraditional backgrounds who are interested in pursuing research in aging and health economics. This fully-funded program includes elements of both training, such as discussions of state-of-the-art empirical methods and relevant data sets, and project development, with an emphasis on identifying promising research questions.

Harley W. Howell Prize May 2022
This award is given to a senior business and economics major for superior academic achievement, promise of leadership career in the field, sound moral character and campus citizenship. This award was issued by the Stead Department of Business Administration & Economics from Coe College.

Spellman Optimum Optimorum May 2022

This award is given to a senior who will be entering an economics Ph.D. program immediately following their graduation from Coe College.
